Project Title: **PakDairy**

Introduction:

Everyday milkman provides milk but nothing is changed they are still using same "Khatta" system and they do not grow there farming business outside city lack of knowledge or resources.

Scope:

Pakistan is the Fifth largest milk producer in the world. There is a large number of consumers who needs healthy certified dairy products. This platform will provide interface between owner and client to get things they need.

Purpose:

We will provide a website, where dairy owners create their profiles to enhance their business and clients can contact them easily. An opportunity for both dairy owners to increase business and clients for getting healthy, original products.

Modules:

Some modules are given below:

- ✓ Registration
- ✓ Animal sales Record
- ✓ Buying and Selling

Tools & Tech:

For making this website we will use HTML, CSS, JavaScript for backend Node.js in VSCode.
